

## **2009 Technology Transfer Award Winners Announced**

EPRI annually recognizes members' who have led technology transfer efforts on behalf of their companies and the industry at large. EPRI 2009 Technology Transfer Awards went to 17 member companies, representing 67 technologies that were implemented by plant owners/operators worldwide.

### **7FA and 501F Repair Guidelines**

- Salt River Project

### **Snake Robot Technology for Nondestructive Evaluation**

- Dynegy Generation

### **Boiler Tube Failure Reduction Methodology**

- Luminant

### **P87 Weld Filler Metal for Dissimilar Metal Weld Joints**

- American Electric Power
- Babcock & Wilcox Co.

### **Real-time Digital Radiography**

- E.ON U.S.

### **Material Validation for Steam Turbine Rotor and Blade Design**

- Doosan Heavy Industries & Construction

### **Flow Accelerated Corrosion (FAC) Software and Training**

- Midwest Generation

### **PlantView Technology**

- Progress Energy

### **Alarm Management and Annunciator Guidelines**

- PNM Resources

### **Fleetwide Monitoring**

- Southern Company

### **Sorbent Activation Process**

- Ameren

### **Hydrated Lime Research Facility at Georgia Power's Plant Yates**

- Southern Company

### **Sustainable Coal Combustion Product Management**

- American Electric Power
- Entergy
- FirstEnergy
- Progress Energy
- Southern Company
- Headwaters Resources
- Boral Material Technologies Inc

**Advanced Temperature Mapping System**

- Luminant

**EPRI's Electric Sector Model (NESSIE)**

- Oglethorpe Power Corporation

**Solar Augmented Steam Cycles for Natural Gas Plants**

- NV Energy
