9:45 am - 10:00 am	Mid- Morning Break	
	Substations Asset Management	
10:00; 10:30, 11:00 and 11:30 am presentations	<i>Predrag Vujovic</i> , LIPA	An Enterprise IT Infrastructure for Managing Assets
	<i>Bob Fyke</i> , Con Edison	Overcoming Data Collection and Utilization Challenges
	<i>Robert Sazanowicz</i> , United Illuminating	Substation Condition Assessment Program
	<i>Matt Westrich</i> , ATC	Using Relay Data for Smart Grid Enabled Asset Management
12:00 – 1:00 pm	Lunch	
	Distribution Asset Management 1	
1:00, 1:35, 2:10 pm presentations	<i>Bruce Roy</i> , Manager of Engineering & Operations Support, Northeast Utilities	Maintenance Standardization and Optimization
	<i>Carl Benner</i> , Senior Research Engineer, Texas A&M University	Substation-Based Management of Feeder Assets Using Intelligent, Automatic Waveform Analysis
	<i>Sal Martino</i> , Central Hudson Gas & Electric	Employing mobile technology for capturing field inspection data
2:45 pm – 3:00 pm	Mid-Afternoon Break	
	Distribution Asset Management 2	
3:00, 3:30, 4:00 and 4:30 pm presentations	<i>Dean Mizumura</i> , HEC0	Using Asset Management to Guide a Vegetation Management Program
	<i>Sam Chien</i> , SCE	Application of reliability forecasting models for distribution system infrastructure replacement decisions
	<i>Nigel Hampton</i> , NEETRAC	Methods to Determine Critical Levels for Diagnostic Tests
	<i>Alyne Silva</i> , National Grid	Power Transformer Spares
5:30 pm to 7:30 pm	Reception at Garden City Hotel (Hosted bar and hors d’oeuvres)	

Sixth Power Delivery Asset Management Conference
Garden City Hotel, Garden City, Long Island, NY, October 27-28, 2010

Thursday, October 28th

7:00 am to 8:00 am	Registration and Continental Breakfast	
	An Executive View of Asset Management	
8:00 am	<p><i>Michael Hervey</i>, Senior Vice President Operations, Long Island Power Authority</p> <p><i>Ken Bowes</i>, Vice President Energy Delivery Services, Northeast Utilities</p> <p><i>Paul Haering</i>, Vice President of Engineering, Central Hudson Gas & Electric</p> <p><i>Bruce Walker</i>, Vice President of Asset Management, National Grid</p> <p><i>Pete Hofmann</i>, Chief Distribution Engineer, Con Edison</p> <p><i>Mike Montoya</i>, Director Grid Advancement, Southern California Edison</p>	<p>Executive Panel: Asset Management – Strategic Initiatives for Today’s Economy and Tomorrow’s Needs</p>
9:45 am - 10:00 am	Mid- Morning Break	
	Role of Smart Grid in Asset Management Strategy	
10:00; 10:30, 11:00 and 11:30 am presentations	<p><i>Mike Montoya</i>, Director Grid Advancement, Southern California Edison</p> <p><i>Xavier Mamo</i>, International Research Program Manager, EDF</p> <p><i>Mike Rowand</i>, Director Advanced Customer Technology, Duke</p> <p>ESB Networks</p>	<p>Asset Management Elements of a Smart Grid Vision</p> <p>Characterizing Equipment Performance in the Smart Grid: the Virtue Of Coordination in Future Networks Asset Management</p> <p>Smart Grid Communications and Asset Management: Duke Energy’s Transformer Based Communications Node strategy</p> <p>Asset Management Excellence and Innovation</p>
12:00 – 1:00 pm	Lunch	
	Improving Asset Management Processes	
1:00, 1:30, 2:00 and 2:30 pm presentations	<p><i>Tony McGrail</i>, National Grid</p> <p><i>Andrew Byard</i>, TransAlta</p> <p><i>Rich Soper</i>, National Grid</p> <p><i>Dick Wernsing</i>, PSE&G</p>	<p>Asset Risk Assessments and Their Use in Rate Cases</p> <p>PAS 55 and Lessons Learned</p> <p>PAS 55 and Implications for an ISO Standard for Asset Management</p> <p>Risk Management Support for an Aging Infrastructure</p>
3:00 pm – 3:15 pm	<i>Ashok Sundaram</i> , EPRI	Conference Takeaways and Future Challenges
